The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

Third-party type approval is required for all Category II personal protective equipment (PPE) products.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.

The standard specifies the requirements for protective gloves against mechanical risks. This glove is a wear, cut and tear-resistant glove.
